

To: The Conservation Oriented Development Sub-Committee  
CC: Conservation Oriented Development File  
From: Planning Staff  
Subject: Draft COD Plan for review  
Date: November 21, 2007

Please find a copy of the draft Conservation Oriented Development plan for your review. The following remains to be added to the first draft:

1. Table of Contents and Table of Figures
2. Information on future review phases
3. Some explanatory graphics and definitions
4. Details of the land use plans for each of the sections
5. Appendices
6. Implementation schedules

The document layout is slightly different from the main master plan. The single column format with wide sidebars allow us to put in **sidebar contents** like definitions of uncommon terms, graphics for features supplementing the text, and identification of references and resources for the topics in question.

**The COD Sub-Committee is requested to examine the document for corrections, modifications, missing components, and most importantly identification of “sidebar contents” throughout the document.**
