

Get Involved in Your Neighborhood

Now that spring has arrived, it's time to get out and enjoy the warmer weather. This is a great time to meet some of your neighbors if you don't know them already. A strong neighborhood friendship goes a long way in helping to reduce crime. If you know who your neighbors are, it is easier to identify suspicious persons in your neighborhood. Neighbors are more willing to get involved and help each other if they know each other.

If you would like to take this idea one step further, you can get involved in your Neighborhood Watch group. If your neighborhood doesn't have a Neighborhood Watch program and you would like more information on starting one up in your neighborhood, call the Kentwood Police Department's Community Services Bureau at 698-6580 for more information.
